Parent Resource Survey

Parents – We want to hear from you!

Alberta Education in partnership with Alberta School Councils' Association and the Fédération des parents francophones de l'Alberta, are continuously seeking ways to inform parents about their children's education.

The Curriculum Handbooks for Parents, Curriculum Summaries, and Curriculum Express for Parents have been one way that we have informed parents about their child's learning experience.

We are currently exploring various options to enhance our parent resources. You can help us by filling out our online survey. It only will take about five minutes to fill out.

Your insights are valued and will greatly assist us with our project!
